# Cotton Duck & Canvas

## Uses of Duck Fabric:

1. Apparel & Workwear: Durable for heavy-duty clothing like jackets, aprons, and uniforms.
2. Outdoor Gear: Ideal for tents, tarps, backpacks, and bags due to its strength and weather resistance.
3. Home Furnishings: Used for upholstery, cushion covers, and curtains for durability and style.
4. Crafting & DIY: Great for home décor, quilting, and crafting projects.
5. Bags & Luggage: Tote bags, backpacks, and duffel bags for their sturdiness

## Fabric features:

100% pure cotton

Width: 50" & 63" inches

Weight: 250-500 GSM

Available for custom prints & dyes with a lead time of 10-14 days.

We offer best quality & price as per the availability and market standards.

# Cambric & Voile

Cambric & Voile fabric is a lightweight, fine, and smooth cotton textile that is tightly woven, giving it a delicate and crisp finish. Known for its soft texture and subtle sheen. It is breathable and comfortable to wear, making it ideal for warmer climates. This fabric is also favored for its durability and ability to hold embroidery or delicate prints well, it can be dyed in various colors.

We have all variants of Cambric & Voile.

Cambric- 60's, 72\*72, etc.

Voile- 92\*80, 80\*72, 100\*100, 70\*90 etc.

Fabric features:

100% pure cotton

Width: 48" & 63" inches

Weight: 50-100 GSM

Available for custom prints & dyes with a lead time of 10-14 days.

We offer best price as per the availability and market standards.

# Twill

Twill fabric is a versatile and durable textile known for its distinctive diagonal weave pattern. It is commonly used in the production of trousers, cargos, jackets, workwear, upholstery, and outdoor gear due to its durability, comfort, and resistance to wrinkles. The fabric's ability to drape well and its long-lasting nature make it a popular choice in both fashion and functional products.

We have all variants of twill fabric like 20's & 30's twll, 16\*12, 3 by 1, 2 by 1 etc.

## Fabric features:

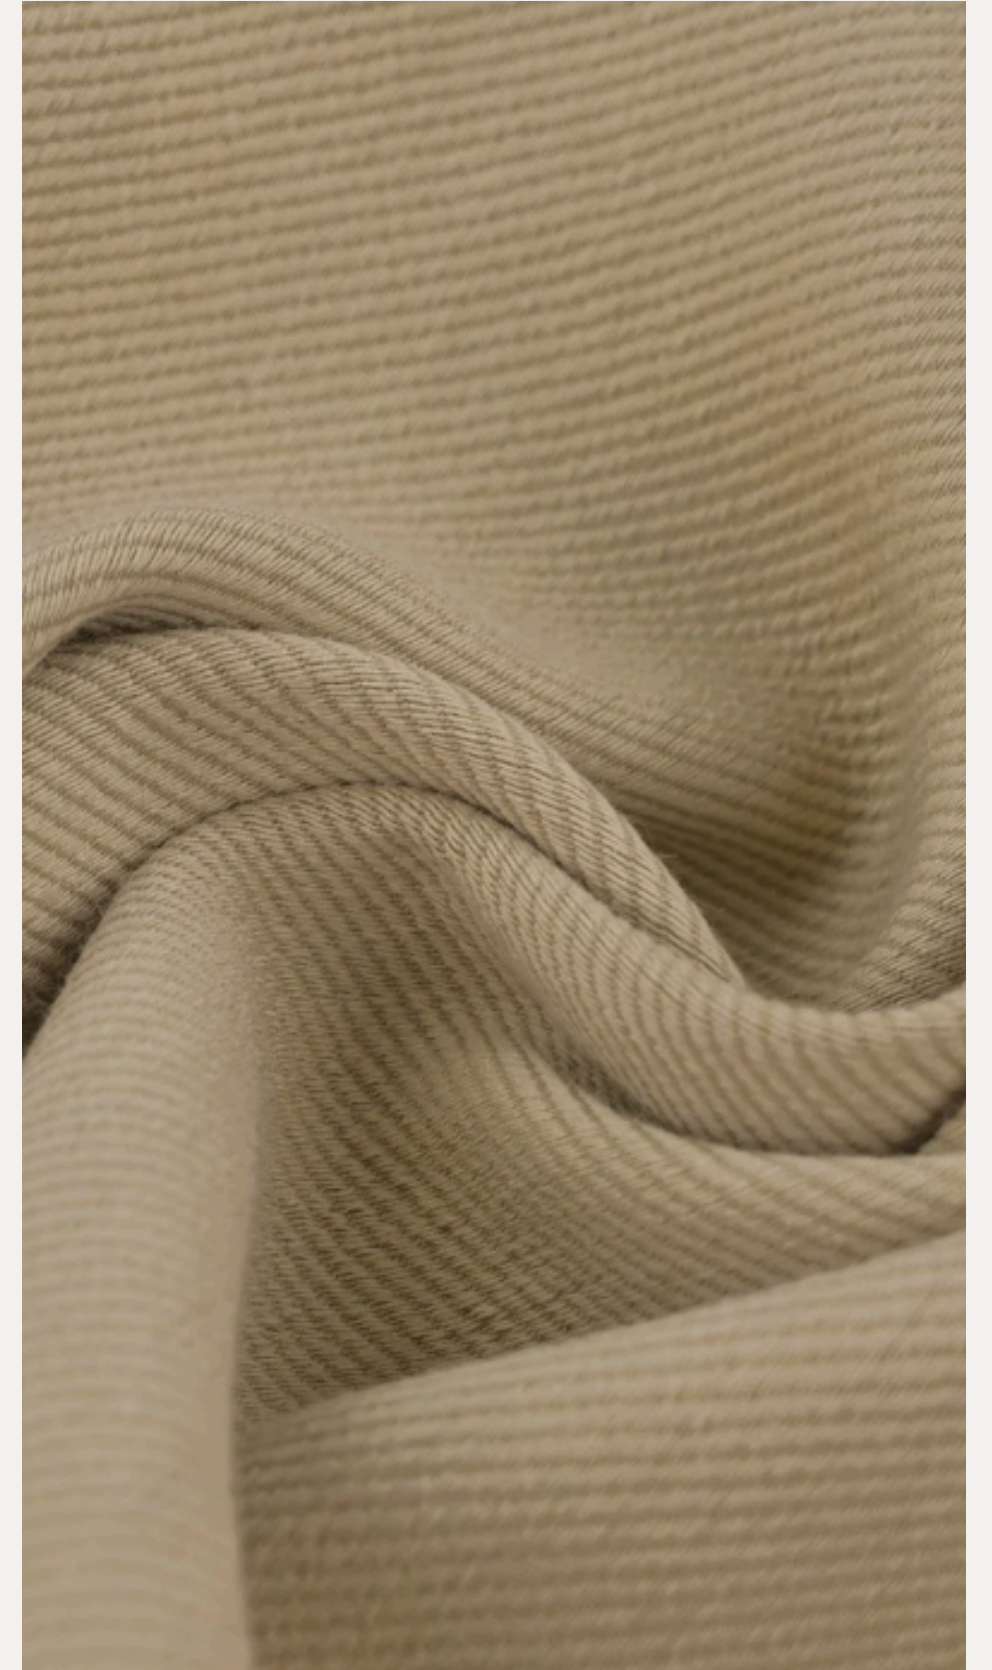

100% pure cotton

Width: 48" & 63" inches

Weight: 170 to 400 grams per meter

Available for custom prints & dyes with a lead time of 10-14 days.

We offer best quality & price as per the availability and market standards.

Kartik Fabrics

# Casement

Casement fabric is a lightweight, breathable textile commonly used for window treatments like curtains and drapes. It is typically made from cotton or a cotton-blend, offering a slightly textured, linen-like appearance. Casement is available in various colors and patterns, offering versatility in home décor.

We also have casement slub, TNT slub etc.

## Fabric features:

100% pure cotton

Width: 50" & 63" inches

Weight: 170 to 240 grams per meter

Available for custom prints & dyes with a lead time of 10-14 days.

We offer best quality & price as per the availability and market standards.

# Rayon

Rayon is known for its luxurious feel, smooth texture, and excellent draping qualities, making it a popular choice in fashion. It is breathable, lightweight, and absorbent, offering comfort for all-day wear. It is available in different types, including viscose, lyocell, and modal, each with its unique characteristics. We have all kinds of Rayon fabrics like Rayon 140gm, 120gm & Rayon crepe 140 & 120gm and Rayon(56\*60).

## Fabric features:

**100% Viscose**

**Width: 48", 54" & 63" inches**

**Weight: 100-220 grams per meter**

**Available for custom prints & dyes with a lead time of 10-14 days.  
We offer best quality & price as per the availability and market standards.**

# Gauze

(Single and Double)

Double or single gauze fabric has seen growing demand in recent years due to its unique blend of softness, breathability, and versatility. As a lightweight, comfortable fabric, double gauze is favored for its relaxed, flowing aesthetic, making it a go-to choice for casual and contemporary fashion, especially in warmer climates. Consumers are increasingly drawn to natural, comfortable, and sustainable fabrics, and double gauze, often made from organic cotton, fits this trend perfectly.

## Fabric features:

100% pure cotton

Width: 54" & 63" inches

Weight: 150 to 200 grams per meter

Available for custom prints & dyes with a lead time of 10-14 days.
